BACKGROUND

For several years, North Tahoe Fire Protection District has been serving the Meeks Bay Fire Protection District under contract. The Districts are preparing to submit an application to LAFCO for annexation of Meeks Bay Fire Protection (El Dorado County) to the North Tahoe Fire Protection District (Placer County). At the Commission meeting of March 9, 2019, staff presented the Commission with several options regarding processing of an application.

DISCUSSION

At the Commission meeting of March 9, 2019, staff presented the Commission with several options regarding the application process for the dissolution of Meeks Bay Fire Protection District and annexation to the North Tahoe Fire Protection District. Staff recommended option 2, in which El Dorado LAFCO handles the sphere of influence amendment and dissolution of Meeks Bay Fire Protection District, Placer LAFCO handles the sphere of influence amendment and annexation of the territory to North Tahoe Fire Protection District.

Subsequent to this meeting, Staff attended a joint meeting between the two districts, along with the Executive Officer from El Dorado County LAFCO. El Dorado LAFCO also met to discuss the various options. Staff will update the Commission with various options regarding processing that have been presented.
