Supervisor/Commissioner Frentzen

For your consideration

Regarding talks in progress involving fire districts reorganization in El Dorado County, has Lafco considered involving "ALL" 12 county fire districts to be put under one fire authority? This move would be highly contentious but looking at the service to the public it might be time to consider this arrangement. It might be feasible to include CalFire in the study, as the agency gives good overall support to affiliated districts and also includes using volunteer firefighters. There would be many "pros and cons" and dollars would ultimately drive the final Lafco decision.
