

Our surveyor has reviewed the new APN's and we concur that they reflect the parcels that are subject to the Reorganization.

Hi Kirk,

As you are probably already aware, there was an APN re-number that occurred in the El Dorado Hills area effective June 19, 2006. 27 of the 28 parcels involved in the Marble Valley Reorganization were given new APNs. Attached is a project description and table reflecting the old and new APNs. Please take a moment to look this over for accuracy. The re-number was initiated by the Assessor's Office and they can be contacted at (530) 621-5719 if you have any further questions. This will be covered in both the staff report to the Commissioners and the reorganization resolution in order to provide clarification of the action. Please contact me if you have any concerns regarding the re-number.

Hi Erica,
Looks good, there are no discrepancies. Thanks,

Liz Ryan

Hi Liz,
This is a list of every parcel we have included in the Marble Valley Reorganization. Thanks for taking a look at it and comparing it with your list. I did send this same attachment to Kirk Bone back in June, which he had his surveyor look over and verify for accuracy. If there are discrepancies, please let me know.
