Position	Subject
Oppose unless amended	Special District Consolidations

CALAFCO Comments: This bill provides a mechanism for residents to petition to a Board of Supervisors to be annexed to a city if they are within 1.5 miles of a boundary or within or adjacent to an existing city SOI. It requires the Board to send a resolution to LAFCo for the annexation and requires LAFCo to approve the annexation. It creates new definitions for "Islands" and for "unincorporated fringe communities." It also prohibits affected districts from terminating the annexation. This bill is sponsored by California Rural Legal Assistance and is tied to their other bill, SB 194. CALAFCO has significant concerns and is working with the author and sponsor on language before taking a position.

Summary: Would authorize a commission to order the administration of nonperforming districts. The bill would require the commission to, upon placing a district under temporary administration, prepare a performance study, as specified.

Position Subject
Watch Financial Viability of Agencies, CKH General Procedures

CALAFCO Comments: This bill would create a category of nonperforming districts and authorize LAFCo to assign the administration and operations to another local agency while a study is performed on the ultimate disposition of the district. Liabilities would remain with the district but the board would be eliminated. The author has agreed to make this a two-year bill while the details are negotiated with stakeholders.

Summary: Would specify the powers and purposes of the Eastern San Joaquin County Water District (district) on and after the date on which the San Joaquin Local Agency Formation Commission approves the consolidation of the Stockton-East Water District and the Central San Joaquin Water Conservation District. The district would be organized into 9 divisions and the board of directors of the district would consist of 9 members. By imposing requirements on the district, the bill would impose a state-mandated local program. The bill would authorize the board of directors to reduce the number of its members to 7 and the number of the district' s divisions to 7. Summary: Would require all other local governments to adopt the 5th revision of the housing element 5 years

after June 30, 2006, and would specify the schedule for all local governments to adopt subsequent revisions of the housing element after the 5th revision, as specified. The bill would authorize the Department of Housing and Community Development to adjust the deadlines for adoption of the 6th and subsequent revisions of the housing element so that the deadlines occur 18 months after adoption of the applicable regional transportation plan, provided that the planning period, as defined, for the housing element is not less than 90 months and not more than 102 months. By adding to the duties of specified local governments, this bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Summary: Under the Political Reform Act of 1974, an "expenditure" means a payment, a forgiveness of a loan, a payment of a loan by a 3rd party, or an enforceable promise to make a payment, unless it is clear from the surrounding circumstances that it is not made for political purposes. Under the act, a candidate or committee that makes an independent expenditure totaling \$1,000 or more in a calendar year to support or oppose a measure or qualification of a measure shall file a report of that disclosure with the Fair Political Practices Commission. This bill clarifies existing law that an expenditure includes the payment of public moneys by a state agency or local government agency, or by an agent of that agency, for a communication to the electorate within the jurisdiction of that agency regarding a clearly identified measure, except if the communication constitutes a fair and impartial presentation of the facts relating to the measure or the communication is otherwise required by law.

Summary: Would require, until January 1, 2020, the public water system, or the local agency if there is no public water system, to review, verify for accuracy, and approve, as specified, the subdivider's water savings projections attributable to voluntary demand management measures, as defined. The public water agency

would be authorized to collect fees necessary to provide the additional analysis of the voluntary demand management measures. This bill would provide that a water supply assessment completed, as specified, satisfies the existing requirement of verifying sufficient water supply, except as specified with regard to new information or water savings projections. Water savings projections would be authorized to be calculated using specified data compiled or maintained by the public water system or the water savings projections adopted by the California Urban Water Conservation Council. Water savings projections for measures for which the California Urban Water Conservation Council does not have adopted findings would be required to be based on substantial evidence in the record and included in the water supply assessment adopted by the water supplier. If a project applicant proposes to use a new voluntary water reduction demand management measure that is not based on water savings projections adopted by the California Urban Water Conservation Council, the legislative body of a city or county or the advisory agency would be required to have the project applicant enter into a mutual agreement with the water utility to implement and monitor the actual water savings over time, as specified. The public water system would be required to prepare a written report of the projected water demand versus the actual water use 5 years after the project has been fully developed, and to provide copies of the report to the project applicant, the city or county that approved the subdivision map, the California Urban Water Conservation Council, and the Department of Water Resources. The bill would also require, at the time of final inspection, that a manual providing, among other things, directions to the owner or occupant on the proper use of water conservation devices and systems be placed in the dwelling. By adding to the duties of the public water system, this bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

The bill would also require the council to report to the Legislature on specified regional performance measures and on the manner in which state agencies are implementing the 5-year infrastructure plan, as specified. The bill would authorize a municipal planning organization, as defined, a council of governments, as defined, or a county transportation commission and a subregional council of governments jointly preparing a subregional sustainable communities strategy to adopt a resolution to impose a surcharge of \$1 or \$2 on motor vehicles registered to an owner with an address in the entity's or entities' jurisdiction. The surcharge would be required to apply to an original vehicle registration occurring on or after 6 months following the adoption of the resolution, as specified, and to a renewal of registration with an expiration date on or after that 6-month period. The surcharge would be collected by the Department of Motor Vehicles and, after deducting its administrative costs, would be transmitted to the entity or entities imposing the surcharge. The bill would require the metropolitan planning organization, the council of governments, or the county transportation commission and the subregional council of governments jointly preparing a subregional sustainable communities strategy to contract with the department to pay for the initial setup and programming costs identified by the department, but would also require these costs to be reimbursed from surcharge revenues collected. The bill would require that the surcharge revenue that exceeds \$1 in specified jurisdictions to be used to provide grants to cities, counties, and cities and counties for planning and projects related to the implementation of a regional blueprint plan , and would specify that 5% of all the surcharge revenue be transmitted to the council for performance of specified functions. The bill would provide that the council is to perform specified new functions only when the council has received sufficient revenue from this source.
