Additional sheet for LAFCO Application

Grant Robert Leonard

My career history includes executive-level participation in the formulation and execution of key business decisions as Vice president at several healthcare product companies. Those decisions included, among many, strategic direction for the company. The long-term goals of an organization are important to clearly define and a timeline is needed to help clarify the steps to meet the goals. Success is not possible without fully meeting those required steps. I have experience in working with a wide range of people in various positions of authority in healthcare organizations and i'm skilled at representing a compelling vision of what we see as a better future and how we get there. I believe that my demonstrated ability to interface with people in a positive manner will be an asset to your organization.

LAFCO has an outsized responsibility for the future and is probably little known and understood by the average resident. The Commission represents the best interests of residents of El Dorado County regarding local government boundaries. This work is important as it affects growth and development, among other things. Growth and development of existing open spaces is a hot topic in the county, as it should be. The interests of business and residents must be balanced to achieve the optimal future for our county.

Grant Robert Leonard
