WHEREAS, the Executive Officer reviewed the sphere of influence update pursuant to the California Environmental Quality Act (CEQA), and recommended that the project is exempt from CEQA under Section 15061(b)(3) because it is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA, and, based thereon, the Executive Officer prepared a Notice of Exemption; and

WHEREAS, the Executive Officer set a public hearing for March 26, 2008 for consideration of the environmental review and the draft sphere of influence update for the City of Placerville and caused notice thereof to be posted, published and mailed at the times and in the manner required by law at least twenty-one (21) days in advance of the date; and

WHEREAS, at said hearing, LAFCO reviewed and considered the draft sphere of influence, and the Executive Officer's Report and Recommendations; each of the policies, priorities and factors set forth in Government Code Section 56425 et seq.; LAFCO's Policies and Guidelines related to spheres of influence, starting with Policy 4.0; and all other matters presented as prescribed by law; and

WHEREAS, the Commission received, heard, discussed, and considered all oral and written testimony related to the sphere update, including but not limited to protests and objections, the Executive Officer's report and recommendation, the environmental document and determinations and the service reviews.

NOW, THEREFORE BE IT HEREBY RESOLVED, DETERMINED, ORDERED AND FOUND:

Section 1. Each of the foregoing recitals is true and correct.

Section 2. The Notice of Exemption prepared by the Executive Officer is approved as the appropriate environmental document for this project.

Section 3. The Commission does hereby make the following determinations regarding the proposal pursuant to Government Code Section 56425(e):

1. The present and planned land uses in the area, including agricultural and open space lands.

Present land uses within the City of Placerville include residential, commercial, industrial, institutional, and open space. Planned land uses are anticipated to remain similar to current land uses and are defined in the City's General Plan and Zoning Ordinance. Except for the northwest areas, any potential expansion into the City's sphere of influence would be logical given the congruency between the City's rezoning and the current zoning under the County's General Plan.

2. *The present and probable need for public facilities and services in the area.*

Present needs for police, parks, drainage, landscaping and lighting and wastewater services within the City of Placerville are currently being met, however additional facilities and staffing may be required in the future. Municipal water and fire protection services are currently being met through agreements with El Dorado Irrigation District and El Dorado County Fire Protection District, respectively.

3. *The present capacity of public facilities and adequacy of public services that the agency provides or is authorized to provide.*

The present capacity of the City of Placerville's Departments of Police, Community Services and Public Works appears to be sufficient to serve the existing community. The City appears to have sufficient personnel, infrastructure and equipment to provide a variety of services to its residents. For some services, the revenue streams may not be sufficient in the long term.

4. *The existence of any social or economic communities of interest in the area if the Commission determines that they are relevant to the agency.*

There are no social or economic communities of interest in the area besides the City of Placerville. However, there are unincorporated areas surrounding the City which are receiving City services, and should be considered for annexation.

Section 4. Pursuant to Government Code Section 56425(i)(2), the Commission does hereby establish the functions and classes of services provided by the City of Placerville as follows: road maintenance, law enforcement, parks and recreation, lighting and landscaping, drainage, water, wastewater, fire suppression and other municipal services.

Section 4. The update to the City of Placerville's Sphere of Influence to affirm the current sphere is orderly, logical and justifiable.

Section 5. The Executive Officer is directed to file a Notice of Exemption under Section 15061(b)(3) in compliance with the California Environmental Quality Act and local ordinances implementing the same.

Section 6. The City of Placerville's sphere of influence is updated to affirm its current sphere, as shown on the attached map, marked Exhibit A, attached hereto and incorporated herein by this reference.

PASSED AND ADOPTED by the El Dorado Local Agency Formation Commission at a regular meeting of said Commission, held March 26, 2008 by the following vote of said Commission.
