Calendar: 5/17/2021 #166 ASSEMBLY THIRD READING FILE - ASSEMBLY BILLS

Summary: Would authorize a local agency to use teleconferencing without complying with the teleconferencing requirements imposed by the Brown Act when a legislative body of a local agency holds a meeting for the purpose of declaring or ratifying a local emergency, during a declared state of emergency or local emergency, as those terms are defined, when state or local health officials have imposed or recommended measures to promote social distancing, and during a declared local emergency, provided the legislative body determines, by majority vote, that meeting in person would present imminent risks to the health or safety of attendees.

CALAFCO Position: Watch

CALAFCO Comments: The bill specifies that the new statute can be applied if meeting in person presents imminent risk to the health & safety of attendees; requires the agenda to provide opportunity for anyone to attend via call-in or internet option; should there be a service disruption that prevents remote public participation, the agency must take no further action on any agenda item until service is restored; the agency cannot require submittal of public comments in advance of the meeting; and requires the legislative body, every 30 days after the initial declaration of emergency, should the emergency remain active, to make certain findings that the emergency still exists and prevents in-person meetings.

This bill is sponsored by the California Special Districts Association (CSDA).

CALAFCO Comments: This is the annual ALGC Omnibus bill, sponsored by CALAFCO, which makes technical, non-substantive changes to the CKH Act. Sections amended include: 56133(a) and (f); 56325.1 (renumbered to 56331.4); 56427; and 56879(a). As amended on 4/19/21, additional sections amended include 56066, 56123, 56124, 56375. Further the bill repeals sections 56375.2, 56387, 56388, 56747, 56760, 57001.1, 57075.5, 57202.1 and 57383.

Calendar: 7/1/2021 Upon adjournment of Session - John L. Burton Hearing Room (4203) SENATE ENVIRONMENTAL QUALITY, ALLEN, Chair

Summary: Current law establishes the Safe and Affordable Drinking Water Fund in the State Treasury to help water systems provide an adequate and affordable supply of safe drinking water in both the near and long terms. Current law authorizes the state board to provide for the deposit into the fund of certain moneys and continuously appropriates the moneys in the fund to the state board for grants, loans, contracts, or services to assist eligible recipients. This bill would prohibit a public water system from transferring or abandoning a water right held by the public water system except upon approval of the state board, as prescribed.

CALAFCO Position: Watch with Concerns

CALAFCO Comments: This bill was gut and amended on 4-6-21 to create the Southern Los Angeles County Human Right to Water Collaboration Act, which requires the State Water Board to appoint a commissioner to implement the Safe & Affordable Funding for Equity & Resilience Program and gives the commissioner certain authorities (not clearly spelled out). It requires the commissioner by 12-31-24 to submit to the Water Board a plan for the long-term sustainability of public water systems in southern LA County and prescribes what shall be included in the plan. The bill also creates a technical advisory board and requires the commissioner to oversee the Central Basin Municipal Water District.

In its current form the bill creates numerous concerns. CALAFCO's concerns include: (1) Focus of the bill is very broad as is the focus of the commissioner; (2) In an attempt to prevent privatization of water systems there is language regarding severing water rights. That language could be problematic should a consolidation be ordered; (3) Diminishing local control that is being invested in the state (an ongoing concern since SB 88); (4) A clear distinction needs to be made between an Administrator and Commissioner; (5) The poorly written section on the technical advisory board; and (6) The lack of LAFCo involvement in any consolidation process.

UPDATE: As amended on 5-24-21, the bill changes the water rights provision now requiring approval by the water Board; uses the definitions of "at risk system" and "at risk domestic well" found in SB 403 (Gonzalez) as well as the 3,300 connect cap; requires the commissioner appointed by the board to be from the local area; requires the commissioner to do certain things prior to completing the regional plan; and requires the commissioner to apply to LA LAFCo for extension of service, consolidation or dissolution as appropriate. The bill also creates a pilot program for LA LAFCo giving them the authority to take action rather than the water board, providing it is within 120 days of receipt of a completed application. If the LAFCo fails to take action within that time, the matter goes to the water board for their action.

The pilot program also gives LA LAFCo the authority to approve, approve with conditions or deny the application; further giving LAFCo authority to consider consolidation or extension of service with a local publicly owned utility that provides retail water, a private water company or mutual; the bill also waives protest proceedings, gives the LAFCo authority to address governance structure and CEQA is waived, provides full LAFCo indemnification and funding.

Summary: The California Safe Drinking Water Act, provides for the operation of public water systems and imposes on the State Water Resources Control Board related regulatory responsibilities and duties. Current law authorizes the state board to order consolidation of public water systems where a public water system or state small water system serving a disadvantaged community consistently fails to provide an adequate supply of safe drinking water, as provided. This bill, the Consolidation for Safe Drinking Water Act of 2021, would authorize a water or sewer system corporation to file an application and obtain approval from the commission through an order authorizing the water or sewer system corporation to consolidate with a public water system or state small water system. The bill would require the commission to approve or deny the application within 8 months, except as provided.

CALAFCO Position: Watch

CALAFCO Comments: The intent of the bill is to prescribe response timelines for the PUC in terms of processing consolidations. This bill creates the Consolidation for Safe Drinking Water Act of 2021. The bill allows a water or sewer corporation to file an application with the Public Utilities Commission (PUC) to approval to consolidate with a public or state small system. The bill requires the PUC to act on the application within 8 months of receipt. If a consolidation is valued at \$5 million or less, the water or sewer corporation can file an advice letter and get the PUC approval via resolution. In this instance, the PUC has 120 days to act on the request. The bill also gives the PUC authority to designate a different procedure to request consolidation for systems valued less than \$5M.

The bill requires the PUC to prioritize consolidation requests based on compliance records and requires the entity requesting consolidation to conduct a thorough public process. The bill is sponsored by the California Water Association and does not have a direct impact on LAFCos.

UPDATE: The amendments on 5/24/21 establish the Consolidation For Safe Drinking Water Fund, with all moneys available, upon appropriation, going to the PUC in order to process the applications and cover any associated regulatory costs, and requires a water or sewer system corporation to pay a fee of \$10,000 when filing an application pursuant to the above provision and requires the fee to be deposited into the fund.

Calendar: 6/16/2021 9 a.m. - State Capitol, Room 4202 ASSEMBLY ENVIRONMENTAL SAFETY AND TOXIC MATERIALS, QUIRK, Chair

Summary: The California Safe Drinking Water Act authorizes the State Water Resources Control Board to order consolidation with a receiving water system where a public water system or a state small water system, serving a disadvantaged community, consistently fails to provide an adequate supply of safe drinking water or where a disadvantaged community is substantially reliant on domestic wells that consistently fail to provide an adequate supply of safe drinking water. This bill would authorize the state board to also order consolidation where a water system serving a disadvantaged community is an at-risk water system, as defined, or where a disadvantaged community is substantially reliant on at-risk domestic wells, as defined.

CALAFCO Position: Neutral, Changed from Oppose unless amended [CALAFCO Oppose Unless Amended Letter April 2021](#) [CALAFCO Removal of Opposition Letter June 2021](#)

CALAFCO Comments: Current law (Health & Safety Code Section 116682) authorizes the State Water Resources Control Board (Board) to order consolidation (physical or operational) of a public water system or state small water system serving a disadvantaged community that consistently fails to provide an adequate supply of safe drinking water, or a disadvantaged community (in whole or part) that is substantially reliant on domestic wells that consistently fail to provide an adequate supply of safe drinking water. This bill would add to that a water system or domestic well(s) that are at risk of failing to provide an adequate supply of safe drinking water, as determined by the Board. The bill also requires the Board, before ordering consolidation, to conduct outreach to ratepayers and residents served by the at-risk system and to consider any petition submitted by members of a disadvantaged community being served by the at-risk system.

There appears to be several problems with this bill: (1) The bill does not define "at risk" and there is no definition of "at risk" currently in H&S Code Sec. 116681; (2) There is a lack of consultation with GSAs by the State Board when considering ordering consolidation or extension of service; (3) There is no requirement or even consideration for annexation upon extension of service; and (4) there does not appear to be a limitation of the number of connections or the extent to which the system can be extended.

The bill is co-sponsored by the Leadership Counsel for Justice and Accountability, Clean Water Action and Community Water Center. A fact sheet is posted in the tracking section of the bill. CALAFCO's position letter is also posted there.

Specific to SB 403, we requested 3 amendments: (1) Define "at risk"; (2) Add a requirement for the SWRCB to consult with GSAs when considering a domestic well consolidation; and (3) Put a cap on the number of users to be added by the subsuming system or the extent to which the service is being extended. Additionally, CALAFCO recommended a comprehensive review of the current mandatory consolidation process citing a host of issues the current process creates.

As amended on 4/27/21, the bill now defines "at risk system" and "at risk domestic well"; creates an appeal process for potentially subsumed water systems; requires inspection or testing of wells to determine "at risk" status; and allows the Board to prioritize systems historically overburdened by pollution and industrial development or other environmental justice concerns. It also puts a cap of 3,300 or fewer connections on systems that can be subsumed. These amendments address 2 of our 3 requested amendments. We will continue to work with the author on requiring the SWRCB to consult with GSAs on wells.

UPDATE: Amends from 6/8/21 add a requirement for the Water Board to consult with GSAs. This is the last remaining amendment requested by CALAFCO so we have removed our opposition and gone to Neutral. The other amendment in this version simply reorders a subsection with no substantive impacts.

AB 897 (Mullin D) Office of Planning and Research: regional climate networks: climate adaptation action plans.

1st House				2nd House							

Summary: Current law requires, by July 1, 2017, and every 3 years thereafter, the Natural Resources Agency to update, as prescribed, the state's climate adaptation strategy, known as the Safeguarding California Plan. Current law establishes the Office of Planning and Research in state government in the Governor's office. Current law establishes the Integrated Climate Adaptation and Resiliency Program to be administered by the office to coordinate regional and local efforts with state climate adaptation strategies to adapt to the impacts of climate change, as prescribed. This bill would authorize eligible entities, as defined, to establish and participate in a regional climate network, as defined. The bill would require the office to encourage the inclusion of agencies with land use planning authority into regional climate networks. The bill would authorize a regional climate network to engage in activities to address climate change, as specified.

CALAFCO Position: Watch

CALAFCO Comments: As introduced, the bill builds on existing programs through OPR by promoting regional collaboration in climate adaptation planning and providing guidance for regions to identify and prioritize projects necessary to respond to the climate vulnerabilities of their region.

As amended, the bill requires OPR to develop guidelines (the scope of which are outlined in the bill) for Regional Climate Adaptation Action Plans (RCAAPs) by 1-1-23 through their normal public process. Further the bill requires OPR to make recommendations to the Legislature on potential sources of financial assistance for the creation & implementation of RCAAPs, and ways the state can support the creation and ongoing work of regional climate networks. The bill outlines the authority of a regional climate network, and defines eligible entities. Prior versions of the bill kept the definition as rather generic and with each amended version gets more specific. As a result, CALAFCO has requested the author add LAFCOs explicitly to the list of entities eligible to participate in these regional climate networks.

As amended on 4-7-21, AB 11 (Ward) was joined with this bill - specifically found in 71136 in the Public Resources Code as noted in the amended bill. Other amendments include requiring OPR to, before 7-1-22, establish geographic boundaries for regional climate networks and prescribes requirements in doing so. This is an author-sponsored bill. The bill necessitates additional resources from the state to carry out the additional work required of OPR (there is no current budget appropriation).

As amended 4-19-21: There is no longer a requirement for OPR to include in their guidelines how a regional climate network may develop their plan: it does require ("may" to "shall") a regional climate network to develop a regional climate adaptation plan and submit it to OPR for approval; adds requirements of what OPR shall publish on their website; and makes several other minor technical changes.

AB 975 (Rivas, Luz D) Political Reform Act of 1974: statement of economic interests and gifts.

Amended 5/18/2021 [html](#) [pdf](#)

Status: 6/1/2021-Ordered to inactive file at the request of Assembly Member Luz Rivas.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Political Reform Act of 1974 regulates conflicts of interests of public officials and requires that public officials file, with specified filing officers, periodic statements of economic interests disclosing certain information regarding income, investments, and other financial data. The Fair Political Practices Commission is the filing officer for statewide elected officers and candidates and other specified public officials. If the Commission is the filing officer, the public official generally files with their agency or another person or entity, who then makes a copy and files the original with the Commission. This bill would revise and recast these filing requirements to make various changes, including requiring public officials and candidates for whom the Commission is the filing officer to file their original statements of economic interests electronically with the Commission.

CALAFCO Position: Watch

Comments: As introduced, this bill makes two notable changes to the current requirements of gift notification and reporting: (1) It increases the period for public officials to reimburse, in full or part, the value of attending an invitation-only event, for purposes of the gift rules, from 30 days from receipt to 30 days following the calendar quarter in which the gift was received; and (2) It reduces the gift notification period for lobbyist employers from 30 days after the end of the calendar quarter in which the gift was provided to 15 days after the calendar quarter. Further it requires the FPPC to have an online filing system and to redact contact information of filers before posting. The amendments on 5/18/21 clarify who is to file a statement of economic interest to include candidates (prior text was office holders).

SB 10 (Wiener D) Planning and zoning: housing development: density.

Amended 5/26/2021 [html](#) [pdf](#)

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Would, notwithstanding any local restrictions on adopting zoning ordinances, authorize a local government to adopt an ordinance to zone any parcel for up to 10 units of residential density per parcel, at a height specified in the ordinance, if the parcel is located in a transit-rich area or an urban infill site, as those terms are defined. The bill would specify that an ordinance adopted under these provisions, and any resolution to amend the jurisdiction’s General Plan, ordinance, or other local regulation adopted to be consistent with that ordinance, is not a project for purposes of the California Environmental Quality Act. The bill would impose specified requirements on a zoning ordinance adopted under these provisions, including a requirement that the zoning ordinance clearly demarcate the areas that are subject to the ordinance and that the legislative body make a finding that the ordinance is consistent with the city or county’s obligation to affirmatively further fair housing.

CALAFCO Position: Watch

CALAFCO Comments: While not directly affecting LAFCoS, the requirements in the bill are of interest. As amended on 4-13-21, the bill imposes specified requirements on a zoning ordinance adopted under these provisions. The bill would prohibit a legislative body that adopts a zoning ordinance pursuant to these provisions from subsequently reducing the density of any parcel subject to the ordinance and makes void and unenforceable any covenant, restriction, or condition contained in any deed, contract, security instrument, or other instrument affecting the transfer or sale of any interest in a planned development, and any provision of a governing document, that effectively prohibits or unreasonably restricts a use or density authorized by an ordinance adopted pursuant to the provisions in the bill.

The amendment on 4-27-21 amends 65913.5(a)(3) to remove exemption of parcels excluded from specified hazard zones by a local agency pursuant to 51179(b).

The amendments on 5-26-21 prohibit a residential or mixed-use residential project consisting of 10 or more units that is located on a parcel zoned pursuant to these provisions from being approved ministerially or by right or from being exempt from CEQA, except as specified, and repeal these provisions on January 1, 2029.

1st House				2nd House							

Summary: Current law requires that the Office of Planning and Research coordinate with appropriate entities, including state, regional, or local agencies, to establish a clearinghouse for climate adaptation information for use by state, regional, and local entities, as provided. This bill would require the safety element, upon the next revision of the housing element or the hazard mitigation plan, on or after July 1, 2024, whichever occurs first, to be reviewed and updated as necessary to include a comprehensive retrofit strategy to reduce the risk of property loss and damage during wildfires, as specified, and would require the planning agency to submit the adopted strategy to the Office of Planning and Research for inclusion into the above-described clearinghouse.

SB 13 (Dodd D) Local agency services: contracts: Counties of Napa and San Bernardino.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 establishes a pilot program under which the commissions in the Counties of Napa and San Bernardino, upon making specified determinations at a noticed public hearing, may authorize a city or district to provide new or extended services outside its jurisdictional boundary and outside its sphere of influence to support existing or planned uses involving public or private properties, as provided. Current law requires the Napa and San Bernardino commissions to submit a report to the Legislature on their participation in the pilot program, as specified, before January 1, 2020, and repeals the pilot program as of January 1, 2021. This bill would reestablish the pilot program, which would remain in effect until January 1, 2026. The bill would impose a January 1, 2025, deadline for the Napa and San Bernardino commissions to report to the Legislature on the pilot program, and would require the contents of that report to include how many requests for extension of services were received under these provisions.

CALAFCO Position: Oppose Unless Amended [CALAFCO Oppose Unless Amended letter May 2021](#)

CALAFCO Comments: This bill is the same as SB 799 from 2020 and seeks to re-establish and continue the pilot program for five more years. The program ended as of January 1, 2021 but due to the pandemic, SB 799 from 2020 to extend the sunset was not moved forward in the legislature.

As amended on 4-29-21, the bill now adds 56133.6 which seeks to address several projects in the City of St. Helena, and resolve a current law suit between the winery and the city. The amendments authorize Napa CALAFCO to consider new or extended service by the city to specific parcels with certain conditions. The bill requires the Napa CALAFCO make certain determinations if approving, include any decision in their required report to the Legislature and has a sunset of 1-1-26.

CALAFCO has made a request for several technical amendments to the version dated 4-29-21, and has concern this addition strays too far from the original intent of the pilot program. Requested amendments on the table now include: (1) Rewording of both sections 56133.5(a)(2) and 56133.6(a)(3) to explicitly state both (A) and (B) are required; (2) Reword the new addition to 56133.5(d) so that it does not presume Napa CALAFCO will authorize the new or extension of service; and (3) Rewrite 56133.6(a)(1) to clarify that (A) must apply to both (B) and (C).

As amended on 5-11-21, all requested technical amendments were made, however the intent of the pilot program has changed with the addition of 56133.6 and Napa CALAFCO's ability to approve extension of service for parcels that do not meet the pilot program's requirement of planned use as defined in 56133.5. For this reason, CALAFCO is opposed unless amended, requesting the removal of 56133.6. Our letter is in the bill detail section.

Summary: Would authorize a municipal wastewater agency, as defined, to enter into agreements with entities responsible for stormwater management for the purpose of managing stormwater and dry weather runoff, to acquire, construct, expand, operate, maintain, and provide facilities for specified purposes relating to managing stormwater and dry weather runoff, and to levy taxes, fees, and charges consistent with the municipal wastewater agency's existing authority in order to fund projects undertaken pursuant to the bill. The bill would require the exercise of any new authority granted under the bill to comply with the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000. To the extent this requirement would

impose new duties on local agency formation commissions, the bill would impose a state-mandated local program.

CALAFCO Position: Support [CALAFCO Support June 2021](#)

CALAFCO Comments: This bill is a redo of SB 1052 from 2020 that was not moved forward because of the pandemic. This bill adds authority to municipal wastewater agencies as outlined in 13911(a) and (b) relating to stormwater runoff and management. The bill authorizes this additional authority while keeping the LAFCo process to activate these latent powers intact. CALAFCO is requesting an amendment to add a requirement that upon entering into the agreement, the agency has 30 days to file a copy of that agreement or amended agreement with the LAFCo. The bill is sponsored by the California Association of Sanitation Agencies.

Summary: This bill would require a local agency with an internet website, or its designee, to email a copy of, or website link to, the agenda or a copy of all the documents constituting the agenda packet if the person requests that the items be delivered by email. If a local agency determines it to be technologically infeasible to send a copy of the documents or a link to a website that contains the documents by email or by other electronic means, the bill would require the legislative body or its designee to send by mail a copy of the agenda or a website link to the agenda and to mail a copy of all other documents constituting the agenda packet, as specified.

Comments: This bill is a modified redo of SB 931 from 2020 that did not move forward because of the pandemic. This bill updates the Government Code to require a public agency to email the agenda or agenda items to anyone who requests it or the link to the website where the documents can be accessed (current law requires the mailing of such documents upon request, this bill adds the option to email if requested).

Summary: Under the California Land Conservation Act of 1965, the board of supervisors or city council may grant tentative approval for a cancellation by petition of a landowner as to all or any part of land subject to a contract, as specified. Prior to any action by the board or council giving tentative approval to the cancellation of any contract, the county assessor is required to determine the current fair market value of the land as though it were free of the contractual restriction, and requires the assessor to send the fair market value to the Department of Conservation, hereafter department, at the same time the assessor sends the value to the landowner. Current law provides for a certificate of tentative cancellation upon tentative approval of a petition by a landowner accompanied by a proposal for a specified alternative use of the land, as provided. Current law requires the board of supervisors or city council to provide notice to the department related to cancellation of the contract as well as in other specified instances. This bill would revise and recast these provisions to no longer require the assessor to provide notice to the department and to require the board of supervisors or city council to provide notice to the department if the certificate of tentative cancellation is withdrawn, as specified.

CALAFCO Position: Watch

CALAFCO Comments: This bill narrows the role of Department of Conservation (DOC) in administering the Williamson Act. It does not change other provisions in the Act except for lessening reporting requirements by local governments to the DOC. The bill repeals the ability of the DOC to agree on a

cancellation value for contracted land with a landowner, along with the requirement that the department provide a preliminary valuation to the applicable assessor, and repeals the requirement that the DOC approve cancellation of a farmland security contract. The bill also repeals and narrows reporting requirements by requiring the DOC to post all local government reports on Williamson Act lands/contracts on its website rather than create a report and submit to the Legislature. The bill also repeals certain reporting requirements by local governments (cities and counties) to the DOC regarding Williamson Act contracts.

As amended on 3/4/21, the bill requires cities/counties to file annual maps on Act lands; and removes the requirement for state approval for the amount of security to be paid when paying cancellation fee. CALAFCO will continue to watch this bill to ensure no detrimental changes are made to the Act through future amendments.

Summary: Would require a proposed housing development containing no more than 2 residential units within a single-family residential zone to be considered ministerially, without discretionary review or hearing, if the proposed housing development meets certain requirements. Would require a local agency to ministerially approve a parcel map for an urban lot split that meets certain requirements. By establishing the ministerial review processes described above, would thereby exempt the approval of projects subject to those processes from CEQA.
