AGREEMENT FOR TEMPORARY SERVICE AT OUTSIDE DISTRICT RATES

The owner of Assessor's Parcel Number 069-290-44 ("Subject Property"), as identified below, is hereby granted temporary service at Outside District rates. Service is being granted based on California Government Code Section 56133(e), which requires that the water be used for "agriculture landscape facilities, including but not limited to incidental residential structures for projects that serve conservation purposes or that directly support agriculture industries."

Therefore, as an express and continuing condition precedent to temporary service, the subject property must qualify for El Dorado Irrigation District's Agricultural Metered Irrigation (AMI) rate, or its successor.

In order to qualify for the AMI water rate, the property owner must complete an AMI application. The minimum criterion to qualify for this rate is 5 acres in crops or 10 acres in irrigated pasture. The crops or pasture will be periodically verified by El Dorado Irrigation District personnel. Once approved, the owner's Outside District rate will be 1.5 times the normal AMI rate.

This agreement will terminate if at any time the District determines that the Subject Property does not qualify, or no longer qualifies, for the AMI rate. Unless earlier terminated, this agreement will remain in effect for a period of three (3) years from the recording date, or the date that a Certificate of Completion is recorded for the annexation of the subject property into the District's service area, whichever comes first. Upon termination or expiration of the agreement for any reason, the temporary service will cease, the owner will relinquish the meter, and all connection fees will be refunded, unless the parties agree otherwise.
