7. The Conducting Authority proceedings are hereby waived in accordance with Government Code §56663(c).
8. The subject territory is within the EID sphere of influence and is contiguous to the existing boundary.
9. The subject property is designated High Density Residential (HDR) by the 2004 County General Plan, and was rezoned One-Family Residential-Airport Safety-

Planned Development (R1-AA-PD) by the Board of Supervisors on February 12, 2008.

10. The subject territory is currently developed land with an unoccupied single-family residence which will be removed upon development of the planned subdivision.
11. The subject property is proposed for the development of Bass Lake Estates, a 36-lot residential subdivision.
12. The petition is consistent with the County's 2004 General Plan.

16. Upon completion of the approval proceedings, EID shall provide water and wastewater services to the subject territory.
17. EID has planned for the provision of water and wastewater services to the subject territory and has developed a fee schedule, bonding funds, and assessments to provide funding for that service.
18. The petition meets the intent, policies, and priorities of this Commission, and the laws and policies within its jurisdiction and authority, including but not limited to the EID sphere of influence and the El Dorado LAFCO Policies and Guidelines.
19. This Commission has reviewed and considered the information contained in the ND, Addendum, Initial Study and administrative record for the petition.
20. The ND and Addendum addressed, among other things, impacts to agricultural resources, hydrology and water quality, land use and planning, population and housing, public services, recreation, transportation and traffic, and utilities and service systems.
21. This Commission finds that the ND, Initial Study and Addendum contain a complete, accurate and objective reporting of the environmental impacts associated with the annexation and reflect the independent judgment of the Commission.

22. This Commission further finds that the ND, Addendum and Initial Study have been completed in compliance with CEQA, the State CEQA Guidelines and the Commission's Local CEQA Guidelines as detailed in the El Dorado LAFCO Policies and Guidelines.
23. A full and fair public hearing was held on the ND and Addendum for the annexation.
24. This Commission has considered all comments received thereon in response to the public circulation of the ND and Addendum and any and all testimony, including those received leading up to and at the time of the public hearing.
25. This Commission hereby finds on the basis of its review of the Initial Study and comments on the ND and Addendum, and all other written and oral evidence presented to the Commission, there is no substantial evidence in the administrative record to support a fair argument that the proposed change of organization may result in a significant impact on the environment. This Commission further finds that the annexation will not cause any significant environmental impacts.
26. El Dorado County's ND, and LAFCO staff's Addendum, for the project are hereby accepted as the appropriate environmental documents for this petition in accordance with CEQA.
27. The County Surveyor has agreed that the submitted legal description and maps are mathematically correct.
28. The annexation will not result in negative impacts to the cost and adequacy of services otherwise provided in the area and it is in the best interests of the affected area and the total organization of local government agencies.
29. The area proposed for annexation represents an orderly, logical and a justifiable extension of the EID boundaries.
30. The proposal is assigned the following short form designation:
