Prof. Ken Deibert — What a guy! What an award!

By Rebecca Murphy
Staff writer

Adjunct professor award named after Mountain Democrat columnist

A new adjunct or part-time faculty award at American River College has been named for Georgetown Gazette and Mountain Democrat columnist and retired Associate Professor Ken Deibert of Garden Valley. The award's full name is the Ken Deibert Adjunct Faculty of the Year Award.

ARC President David Vlar said, "Because of his tireless efforts, the new annual American River College Adjunct Professor of the Year award is named for Ken Deibert."

Deibert was on the Design Technology faculty for more than 20 years and served on the academic senate for more than 10 years. Associate Professor Gary Aguilar of Coloma was thanked by Deibert for completing details of the work on recognition of the adjunct professor of the year honor, after

Courtesy photo

BARBARA WESTRE of counseling services at American River College, is the first to receive the "Ken Deibert Adjunct Professor of the Year" award, named in honor of Mountain Democrat columnist and former college professor Ken Deibert, right.

the latter's retirement last year.

While awards for full-time faculty have been in effect since Deibert started his

work at ARC 25 years ago, part-time faculty awards were not.

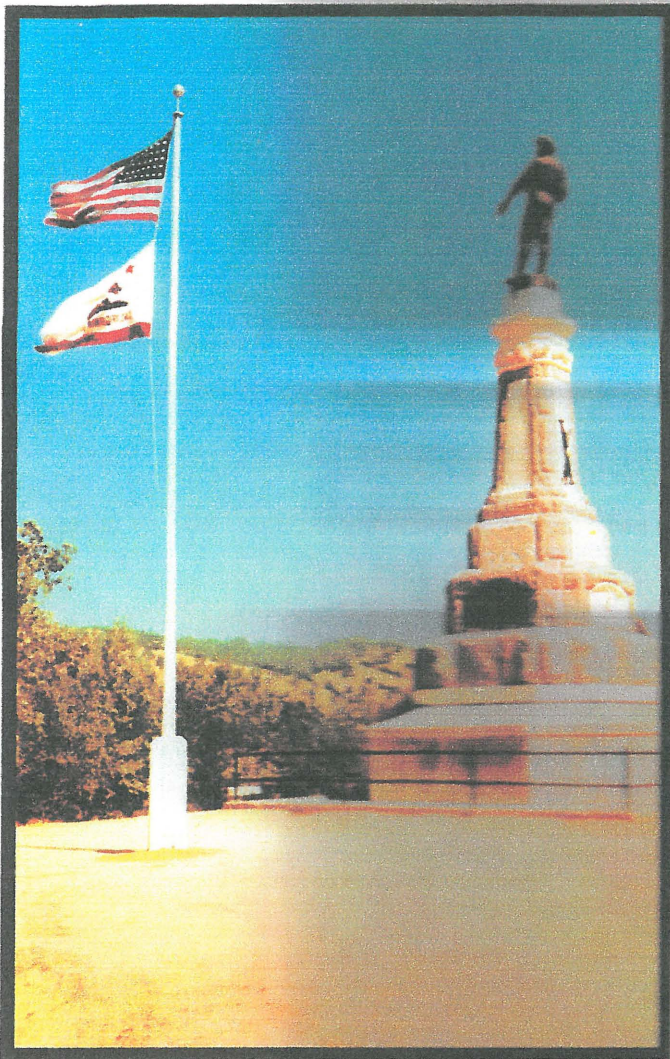

"The American River Adjunct Faculty of the Year

award was my pet project for years when I served on the American River College Academic Senate," said Deibert. "I served for some years with Coloma resident (Aguilar) at Academic Senate. He and I steered a new honor for part-time or adjunct faculty through the process. Regrettably, I left teaching this time last year, (but he maintained contact with Aguilar)."

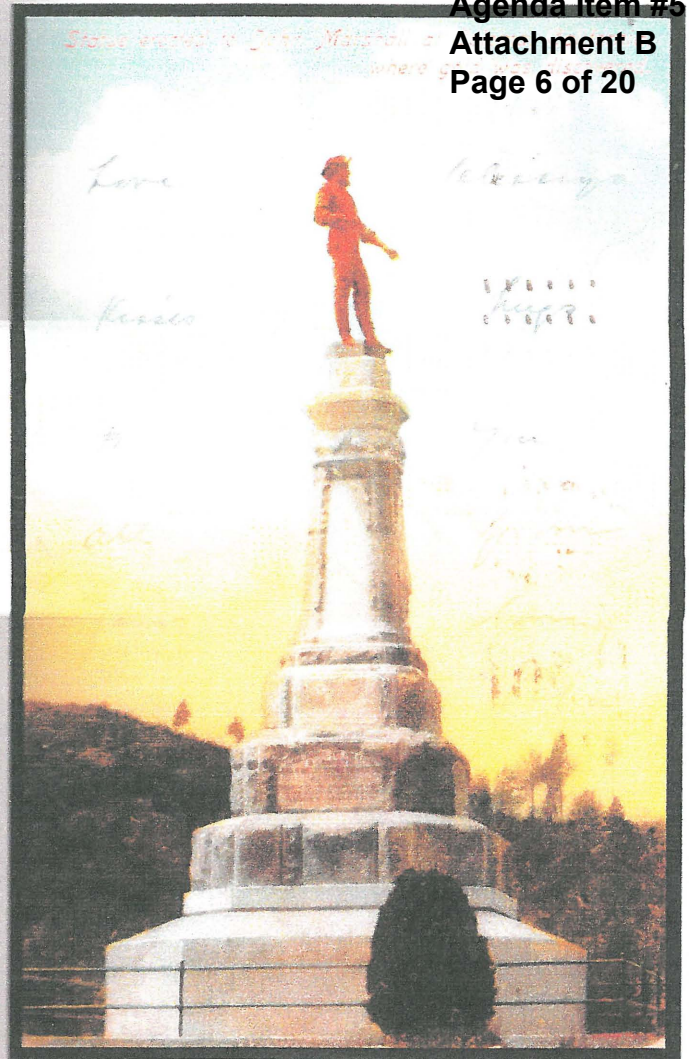

In an e-mail last December, Aguilar wrote Deibert to tell him that the award would be named the Ken Deibert Adjunct Faculty of the Year Award. Although Deibert no longer teaches at ARC, the award will carry his name in perpetuity. The first award was presented Jan. 13 at ARC in Sacramento to counselor Barbara Westre. Along with the honor, the winner gets \$500 and a gift basket with ARC items from the bookstore.

American River College boasts the second largest student population in the California Community College System. The academic senate is the part of

"shared governance" that represents the ARC faculty in its role in business with Los Rios Community College District and the ARC main campus management.

Education Background: MBA, International Business

Employment:

I was previously employed by Lochard Corp, an international firm specializing in Airport Noise and Operations Monitoring Systems, as a Senior Service Delivery Manager.

List all other boards, commissions, or committees you are now a member or have been in the past, including dates of service:

N/A

Please list community interests/activities:

I am currently the president of the Heritage Association of El Dorado County, a non-profit corporation, whose goal is "Preserving the Past for the Future" by "researching, documenting, promoting and preserving the rich history, cultural resources and colorful folklore of the county that made California famous." I chaired a committee which worked with the City of Placerville to resurrect the Historic Advisory Committee, including identifying the requirements and duties of the members of the committee. I am very interested in and try to follow the issues/actions before the Placerville City Council and the El Dorado County Board of Supervisors.

Please summarize the qualifications you feel are related to service on the LAFCO Commission:

I have a good understanding of LAFCO's purpose as it relates to California state law. I am very familiar with the CEQA process. My position at Lochard provided the opportunity to work with airports throughout California and to understand airport noise contours and the effects of air traffic on the surrounding community. I have toured the City's Wastewater treatment plant and have a good understanding of the issues surrounding water and sewer issues in the City, including the desire for more hookups to ease budget issues. I am aware the City is interested in island annexations within its sphere of influence.

What is your understanding of the roles and responsibilities of the Commission?

I understand that the role and responsibilities of the Commission is to promote orderly growth and development, to discourage urban sprawl while preserving open space and agricultural lands, and to encourage efficient service areas for local governments.

Why do you wish to serve on the Commission?

I believe it is important for the public to become more involved and informed about issues that affect their communities. There is an obligation to balance the needs of individual property owners, neighborhoods and communities with the larger needs of special district, service areas and municipalities. The commission member who represents the "public as a whole" should have a unique perspective on the protection of individual property right, and recognize that annexation should be beneficial for all parties.

Have you attended any meetings of the LAFCO Commission?

No
